wozq mission statement

WOZQ, established in 1949, is first and foremost Smith College's radio station, committed to bringing high-quality programming to the campus and its audience at large. As new forms of media emerge, WOZQ believes it is important to uphold radio as a unique means of exchange with the community. As an independent, student-run station, WOZQ has and will continue to serve as an alternative to corporate media, providing the Smith and surrounding community with diverse music, news and events that may not otherwise reach mainstream audiences. WOZQ's mission is to have a group of well-trianed and committed DJs to serve this purpose. Finally, WOZQ is the oldest running women's college radio station, and encourages the empowerment of its students through their involvement in broadcasting.

departmental mission statements

general [g]

the general department drives WOZQ's mission in exposing listeners to the music you wouldn't typically hear on commercial radio. We as a department provide the link between our station and its role in the world of college radio.

revolutions [r]

the revolutions department of wozq is dedicated to providing smith college and the pioneer valley with "urban" music through radio programming, events and publications. the music within the revolutions department comes out of black culture but since has evolved to encompass various genres, atists, djs and listeners; the genres include jazz, hip hop, r&b, soul, electronica, dance, party, reggae, reggaeton, dance hall, etc.

specialty [s]

the specialty department at wozq serves two main functions. the first is to provide a place for genre and theme-specific shows that do not otherwise fit in with any of the other departments. the second is to act as the station's connection to the local music scene, both in the pioneer valley and the five colleges.

news [n]

the news department of wozq serves as a forum for current events, ranging from local to global. the purpose of the news department is to raise awareness of such events or issues to smith and the surrounding community, as well as to provide an arena for other types of non-musical programming such as vocal broadcasting of poetry, plays, and other spoken pieces.
